SILHOUETTE SOFT®

Doctor Vakis Kontoes is Director of "Laserlight Clinic", Athens, Greece the first private Laser Clinic of non surgical Lasers established in Greece in 1997
President of DrK Medical Group (www.drkmedicalgroup.com)

Dr. Kontoes is a pioneer of Laser Aesthetic surgery in Greece and Europe and performed the first ever full face resurfacing for wrinkles, age spots and age signs of the face in the country in 1995. He is also known for the innovative evolution of the Laser Blepharoplasty technique with the Single Suture Traction Technique (SSTT) described and published by him. He is applying the whole spectrum of Aesthetic and Plastic surgery techniques.

His research and experience in Laser and Plastic Surgery are appreciated worldwide and he is regularly invited to International Congresses and Universities to give lectures on techniques exclusively developed by him, very well known in the society of plastic surgery across the world for his excellent teaching skills
